

VoltVibe Carrier Shipping Rates, Volumetric Packaging, & Weight Thresholds

1. Shipping Rates & Delivery Speed Tiers

VoltVibe shipping rates are determined by a combination of shipment weight, packaging dimensions, and the selected delivery speed tier. All shipping charges are displayed in USD at checkout and are non-refundable once the package has been dispatched from our warehouse.

1.1 Shipping Weight Tiers and Rates Matrix

We utilize four weight-based shipping tiers to calculate shipping costs:

Shipping Weight Tier	Standard (3-7 Days)	Express (2-3 Days)	Overnight (1 Day)
Tier 1 (0.00 lbs - 2.00 lbs)	Free (0.00)	\$7.99	\$19.99
Tier 2 (2.01 lbs - 10.00 lbs)	\$5.99	\$12.99	\$29.99
Tier 3 (10.01 lbs - 25.00 lbs)	\$12.99	\$24.99	\$49.99
Tier 4 (Over 25.00 lbs)	\$24.99	\$45.99	\$89.99

2. Volumetric (Dimensional) Weight Calculations

Carriers charge shipping costs based on the physical weight of the package or its volumetric dimensional weight, whichever is higher. Dimensional weight represents the package's volume relative to weight and is calculated using the industry-standard formula:

Dimensional Weight (lbs) = (Length x Width x Height) / 139

For example, a box with dimensions 12 inches x 12 inches x 12 inches has a volumetric volume of 1,728 cubic inches. Dividing by 139 yields a dimensional weight of 12.43 lbs. If this box contains light accessories weighing only 3 lbs, the carrier will bill VoltVibe based on the 12.43 lbs weight (Tier 3), and the shipping cost will reflect the higher tier rate. This billing rule explains why small orders shipped in oversized packaging may occasionally incur higher shipping charges.

3. Processing Timelines, Restrictions, and Regional Surcharges

Standard order processing in our warehouse takes 24 to 48 hours before shipment dispatch. All delivery speed guarantees are calculated from the *date of shipment* rather than the *date of purchase*.

3.1 Overnight Processing Deadlines & Conflicts (The Warehouse Discrepancy)

THE INCONSISTENCY: Standard warehouse guidelines state that all delivery speed timelines exclude warehouse handling times (typically 24 to 48 hours to pack, seal, and dispatch). However, under our express processing terms, all Overnight shipping orders placed before 1:00 PM EST are guaranteed to be processed, packed, and shipped on the same business day. If an Overnight order placed before 1:00 PM EST is not dispatched on the same day due to warehouse processing backlog, the shipping charges are fully refunded to the customer as a store credit, though the package will still ship the following business day. Overnight orders placed after 1:00 PM EST will automatically ship on the next business day and do

not qualify for handling fee refunds.

3.2 Regional Surcharges and Military Address Exclusions

Shipments delivered to locations outside the contiguous United States (including Alaska, Hawaii, Puerto Rico, Guam, and the US Virgin Islands) are subject to a flat-rate \$15.00 USD remote area surcharge, regardless of the package weight tier. Standard shipping to military APO/FPO/DPO addresses is supported, but overnight and express options are blocked due to government security screening requirements. Customers shipping to military locations must select standard shipping at checkout, and transit times can take up to 21 business days.

4. Freight Shipping Requirements (LTL Cargo)

Large items or heavy bulk orders exceeding a physical scale weight of 70 lbs (such as multi-unit solar array bundles or dual VoltVibe Titan PowerStation setups) cannot be shipped using standard delivery carriers.

4.1 Heavy LTL Freight Regulations & Delivery Surcharges

CRITICAL CARGO RULE: Heavy cargo exceeding 70 lbs must be shipped via Less-Than-Truckload (LTL) freight carriers. LTL freight shipments are ineligible for Express or Overnight shipping options. Freight transit times range between 5 to 10 business days within the contiguous United States. Furthermore, LTL delivery to a residential address requires a scheduling appointment with the carrier and lift-gate truck service, which incurs a mandatory \$75.00 LTL residential freight surcharge. This charge is automatically added to the shipping total at checkout and cannot be waived. If the customer fails to be present during their scheduled LTL delivery appointment window, the carrier will charge a \$50.00 redelivery fee, which must be paid before the carrier will attempt a second delivery.
