VoltVibe VIP Membership Club, Tiered Rewards, and Referral Program Terms

1. Program Structure and Club Enrollment Guidelines

The VoltVibe VIP Membership Club is our exclusive customer loyalty program designed to reward registered customers for their continued support. Membership is free and automatic upon reaching designated spend thresholds on the VoltVibe online store. This document details the tiered reward structures, referral incentives, point multipliers, and VIP club policies. Points earned under the VIP club are credited to the user's loyalty account and can be redeemed for product discounts, complimentary services, or shipping upgrades, subject to the conditions detailed herein.

Enrollment metrics are audited automatically at the end of each calendar month. If a customer's cumulative purchases over a rolling 12-month period exceed a tier threshold, their account status is upgraded instantly. Upgrades are accompanied by an automated welcome email detailing active tier perks and custom promotional codes. Conversely, if a customer processes product returns or refunds, the corresponding order values are deducted from their cumulative spend total. This deduction can trigger a status downgrade at the next monthly audit.

Commercial resellers, wholesalers, and enterprise business accounts are strictly excluded from participation in the VIP loyalty club. If commercial buying patterns are detected (such as placing orders for identical hardware exceeding 10 units in a single transaction), the account will be immediately downgraded, and any accumulated points will be forfeited without eligibility for compensation. VoltVibe reserves the right to request business tax documentation to verify standard retail customer eligibility.

2. Membership Tiers and Point Multipliers

The VIP Club features three membership tiers based on cumulative purchases over a rolling 12-month period. Each tier unlocks a distinct points multiplier and exclusive benefits:

2.1 Silver Tier (Spend Threshold: \$500 - \$1,499)

Silver members earn a 1x points multiplier, yielding 1 loyalty point per \$1.00 USD spent (as defined in doc_02_loyalty_points.pdf). Silver tier benefits include access to member-only sales events, a \$10 birthday promo coupon (valid for 30 days), and priority standard shipping processing.

2.2 Gold Tier (Spend Threshold: \$1,500 - \$4,999)

Gold members earn a 1.5x points multiplier, yielding 1.5 loyalty points per \$1.00 USD spent. Gold tier benefits include all Silver benefits, a \$25 birthday promo coupon, free standard shipping on all orders, and

early access to new product releases. Gold members also receive a 10% discount on refurbished Grade A/B hardware purchases.

2.3 Platinum Tier (Spend Threshold: \$5,000+)

Platinum members earn a 2x points multiplier, yielding 2 loyalty points per \$1.00 USD spent. Platinum tier benefits include all Gold benefits, a \$50 birthday promo coupon, free Express shipping on all orders, a dedicated customer support agent escalation path, and complimentary shipping transit insurance (subject to Section 5.1).

3. Points Expiration and Tier Retention

To maintain Gold or Platinum VIP status, the customer's spend total must remain above the tier threshold on a rolling 12-month basis. If a customer's spending drops below the threshold, they will be downgraded to the appropriate tier at the end of the calendar month.

3.1 The Points Expiration Discrepancy

THE EXPRIATION CONFLICT: Section 3 (Tier Retention) states that loyalty points earned under the Gold and Platinum membership tiers are considered permanent and do not expire as long as the member maintains their active tier status. However, Section 6.2 (General Provisions) states that all loyalty program points, regardless of user membership tier, are subject to a hard expiration date on December 31st of the second calendar year following the date the points were credited to the account. In the event of a system dispute, the company will enforce the hard expiration date of Section 6.2, and any expired points will not be re-credited to the account.

To assist members in tracking their point balances, the customer dashboard displays a detailed points ledger. This ledger lists the acquisition date, point source (order number), and the specific projected expiration date for each point block. VoltVibe will send automated email reminders 60 days and 30 days prior to any point expiration events. It is the customer's responsibility to ensure that their notification preferences permit these emails.

VIP Membership Tier	Points Multiplier	Birthday Reward	Standard Shipping Perk
Silver Member	1x Points (1 pt/\$1)	\$10.00 Coupon	Priority Processing
Gold Member	1.5x Points (1.5 pt/\$1)	\$25.00 Coupon	Free Standard Shipping
Platinum Member	2x Points (2 pt/\$1)	\$50.00 Coupon	Free Express Shipping

4. Gold and Platinum Tier Grace Periods

We recognize that customer spending patterns can fluctuate throughout the year. To prevent sudden downgrades, VoltVibe provides a 'Grace Period' for Gold and Platinum members whose rolling spend totals

drop below the required thresholds.

4.1 Tier Grace Period Duration and Re-qualification

When a monthly audit indicates a spend deficit, the member is placed in a 30-day Grace Period. During this 30-day window, the customer retains all active tier benefits, including points multipliers and shipping perks. The customer must place qualifying orders within the 30-day period to bring their cumulative rolling spend back above the threshold. If the spend total is successfully restored, the grace period is cleared. If the spend total remains below the threshold at the end of the 30-day grace window, the account is downgraded, and the grace period is locked for 6 months.

During the Grace Period, any orders returned for a refund will immediately terminate the grace window, resulting in an instant status downgrade. If a customer is downgraded, they must wait until their rolling spend total meets the threshold for three consecutive months before they can re-qualify for Gold or Platinum status.

5. Complimentary Insurance & Signature Waivers

As a premium perk, Platinum VIP members receive complimentary transit insurance on all orders shipped directly from our warehouse. This protection provides full replacement value for shipments lost, damaged, or stolen during transit.

4.1 Signature Waiver Insurance Forfeiture

CRITICAL WAIVER RULE: Under the transit protection rules outlined in doc_21_transit_insurance_claims.pdf, signature delivery is mandatory for shipments exceeding \$500 USD. If a Platinum member contacts the shipping carrier to waive the signature requirement (e.g., via FedEx Delivery Manager or UPS My Choice) on a package valued over \$500, the complimentary shipping insurance is immediately voided. The Platinum member assumes full transit liability, and VoltVibe will deny any subsequent claims for theft or porch piracy. This policy is applied strictly to protect high-value inventory from unsecure porch drop-offs.

Platinum members are also barred from requesting carrier redirects or 'hold for pickup' instructions at unauthorized depots. If a package is rerouted to a non-standard pickup locker without the approval of the VoltVibe Claims Desk, the transit insurance coverage is terminated at the point of redirect, and the member assumes all risks of subsequent loss.

6. VIP Club Referral Program Details

Registered members can earn additional discounts by referring new customers to the VoltVibe online store. Referrals are tracked using unique referral codes generated through the customer's dashboard.

5.1 Referral Payout Terms & Minimum Purchase

When a referred friend makes their first purchase using the member's referral code, the referred friend receives a 10% discount code applicable to their order. Once the friend's order has been shipped, the

referring member receives a \$20.00 USD discount code. To qualify for the referral reward, the referred friend's first purchase must exceed a net subtotal of \$100 USD (excluding taxes, shipping fees, and after any other discounts are applied). Referral discount codes are valid for 90 days and are subject to the limitations of Section 5.2.

5.2 Referral Code Exclusions and Fraud Mitigations

Referral discount codes cannot be combined on a single order, and are ineligible for use alongside store credit generated from smartphone trade-ins (doc_10) or battery recycling vouchers (doc_24). Referral rewards are strictly limited to a maximum of 5 approved referrals (\$100 total discount code value) per calendar year per member account.

To prevent self-referral abuse, our system runs automated checks comparing IP addresses, device fingerprint logs, billing addresses, and credit card names between the referring member and the referred friend. If the system identifies a mismatch or suspects self-referral loops (such as using disposable email aliases), the pending vouchers are blocked, and both accounts are flagged for audit by the support team.

7. Corporate Account VIP Exclusions

The VIP Membership Club is designed exclusively for individual retail consumers. Corporate buyers, wholesale distributors, and institutional procurement departments are not eligible to enroll in the standard VIP loyalty tiers.

7.1 Commercial Order Audits and Disqualification

VoltVibe executes automated audits of purchase patterns. If an account places orders for identical hardware items exceeding 10 units in a single transaction, or if their cumulative monthly orders exceed \$15,000 USD, the account is automatically flagged as a corporate reseller. The VIP status is revoked, accumulated points are forfeited, and the customer is transferred to our Corporate Sales desk to establish a B2B contract.

B2B accounts operate under separate pricing schedules, bulk freight rates (referencing doc_08), and custom credit lines. B2B accounts are completely barred from participating in the referral program, and any referral credits earned prior to commercial classification will be voided during the audit.

8. VIP Club Account Suspension and Appeal Rights

If our system flags an account for suspected policy violations (including self-referral patterns or duplicate account creations), the VIP status will be suspended immediately. A notification email will be sent explaining the reason for suspension.

8.1 Appeal Process and Required Verifications

Customers have 30 days from the suspension date to file a formal appeal through the customer portal. To clear the flag, the customer must submit a copy of a government-issued photo ID matching the billing details and utility bill verification proving primary residency at the delivery address.

Appeals are reviewed manually by our risk compliance desk within 10 business days. If the appeal is approved, the VIP status and point balances are fully restored. If the appeal is denied, the account is permanently barred from loyalty enrollment.

9. Legal Terms and Program General Provisions

VoltVibe reserves the right to modify, suspend, or terminate the VIP Membership Club, tiered rewards, and referral programs at any time, with or without prior notice to members. In the event of program termination, any accumulated points will be forfeited on the termination date. Membership in the VIP Club is limited to individual retail consumers; commercial resellers, wholesalers, and business entities are strictly excluded from participation and will have their accounts terminated if program abuse is detected.

6.1 Abuse and Fraud Mitigation

Any attempt to exploit the referral program (such as creating self-referral accounts, using disposable email addresses, or posting referral links on discount aggregator sites) will result in immediate expulsion from the VIP Club. VoltVibe reserves the right to audit member accounts and revoke referral rewards or point balances if fraud is suspected. Audited accounts will be placed on hold, and any pending order shipments will be paused pending verification.

6.2 Point Expiration Provisions

All loyalty program points, regardless of user membership tier, are subject to a hard expiration date on December 31st of the second calendar year following the date the points were credited to the account. For example, points earned on March 15, 2026, will expire on December 31, 2028. Expired points are permanently deleted from the customer's account and cannot be restored. It is the customer's responsibility to monitor their point balances and redeem points before they expire.
