

VoltVibe IT Support: Step-by-Step Employee Guide for Connecting to Office Xerox Printers

Updated: February 2026

This internal IT guide helps employees connect their work laptops to the corporate network printers at the VoltVibe main headquarters.

Connection Instructions:

1. Ensure your laptop is connected to the secure "VoltVibe-Corp-WiFi" network.
2. Windows: Open Settings -> Devices -> Printers & Scanners. Click "Add a printer". Select the network printer named HQ-Xerox-Floor2 or HQ-Xerox-Floor3.
3. macOS: Open System Preferences -> Printers & Scanners. Click the "+" button, select the IP printer tab, and type the printer host IP (e.g., 10.150.2.42). Select AirPrint or download the Xerox driver.
4. Input your employee print code when prompted.
